## Education

### Master of Computer Application

Ajay Binay Institute of Technology,  
Cuttack

Mark : 8.48 CGPA

2018- 2021

## Experience

### Software Developer

HyScaler Technologies

Nov 2021 - Present

### Artisan V4

**Feature:** Developed and implemented a cloud-based Electronic Medical Records (EMR) system integrated with fertility management functionalities for a leading fertility clinic. Responsible for designing and executing the project, ensuring data security, and optimizing clinic operations. Integrated fertility management features into the EMR system, enabling efficient tracking and analysis of patient fertility cycles, treatment plans, and outcomes with data privacy and comply with regulatory standards such as HIPAA.

**Tech :** Next.js | Express.js | MongoDB | Redux.js | Tailwind CSS | AWS-S3 | GraphQL | Redis | Elastic Search | Pusher

**Role:** I am part of a 12-member team that successfully developed a project for USA client.

**Note:** Currently, the project is in the staging stage. We Successfully release one clinic for our client and completed another clinic recently.
